TCM  
TCC MARKETING CO.,LTD.

TCC-products

**THAICOLOR CLAY CO.,LTD**  
Head office and manufacturing  
in Samuthsakhon, Thailand

Thaicolor Clay Co.,Ltd (TCC), a part of A.M Group with a plenty of various businesses, is particularly a manufacturer of Non-Toxic modelling clay and dough with high quality located in Samutsakhon, Thailand, where is away from Suvarnabhumi Airport around 1.30 hrs. In 1998, Thaicolor Clay had been officially established in Bangkok, however, because of the business expanding, we had to move to Samutsakhon (One of Thailand industrial zones) in 2003. The new factory is located on 10,000-sqm site which is suitable for the production facilities including modern manufacturing, logistics and warehouse.

We are not only supporting the domestic market, but also the export market to customers who are interested in clay business from around the world. Since we have our own brand "Smile Kids", we still work with our distributors in many countries such as India, Vietnam, Philippines, and Saudi Arabia etc. However, we also support customers who need OEM (Original Equipment Manufacturer) products on their own brands.

"Never stop developing and searching for new clay items." is our policy to improve the specifications and adapt our clay to the modern world. We produce a wider range of premium modelling clay and dough in over 60 different color shades. Products are available in trendy attractive packaging under Smile Kids label and also customized designs.

TCC is strictly qualified to produce only NON-TOXIC products and followed the quality as an international norm or standard. We particularly accept the materials which passed \*REACH pre-registration. Moreover, we also have a strong team of QC department to recheck the materials and the full products before handing to the customers. Also all Thaicolor Clay products are tested in strict compliance with European Norm EN71, American standard ASTM/ LHAMA and reach all required EH&S standards.

\*Registration, Evaluation, Authorization & Restriction of Chemicals (EC 1907/2006)

### Smile Kids

"Smile Kids - Products with Heart to all Children to be Smart" Our strong teams of dedicated people are able to ensure that our new premium products will be kept developing and introducing to all customers and clients worldwide in the future. This may include the introduction of Floating Clay which is relevant to many interesting modelling applications. We look forward to the ongoing interest and support to our many customers and potential clients in future with great appreciation.

## Modelling Clay

Reusable modelling clay is made of all natural products which is an excellent modelling material for all purposes. The materials are not able to get hardened and stay soft with formable shapes. It may be reused several times which will never dry out after exposing in the air.

Smile Kids Modelling clay is available in many attractive color tones, forms, and shapes which and The product is suitable for children of 3 years above. The shelf-life is 2 years from the date of shipment.

## Dough

Smile Kids Dough is smooth, able to knead and easily to be shaped. It is made of all natural ingredients such as flour and water etc. It enhances the imagination and concentration to children, moreover, also let them play for hours happily. It comes in many colors. The material dries out within 1-3 days when exposing to the air, but may be re-softened by applying some water or lotion to the dough. The product is suitable for children 3 years above. The shelf-life is 1 year since the date of shipment.

## Floating Clay

The touch sensation is similar to modelling clay, but lighter, softer, and stickier. It's easy to be sculptured and also reusable for many times. Floating clay can be left in the air without drying or hardening. The clay specialty is to be able to float on the surface of water, so children can imagine the underwater world by their own creation. Water should be in room temperature, not hot. It is guaranteed to float for a long time. The product is suitable for children of 3 years above. The shelf life is 1 year from the date of shipment.

## Supremo Life Sand

The non-toxic sand has 98% of purified sand and silicone as main ingredients with gluten free. It is easy and safe for children to play and clean without any dirtiness and, also can be formed in many shapes and figures. The sand is not included fluid, so there is no place for bacteria to grow. It is also good for therapy issues with great sensation like real sand. However, it will be dried out if leaving in the air without any covers.

It is suitable for children of 3 years above. The shelf-life is 1 year from the date of shipment.
